Portable Container Tilter

Floor Level Container Tilter

Stationary Container Tilter

Zero Lift & Tilt

Wide Base Tilter

Presto Lifts' Tilter line includes a vast variety of designs and styles. Styles include floor level tilters, portable tilters, container tilters and combination lift and tilts. Standard capacities range up to 6000 lbs. and are offered in both hydraulic and pneumatic versions.

# PALLET POSITIONERS

The P3™ -Presto Pallet Positioner automatically maintains pallets at a constant level and comfortable working height as layers of boxes are added or removed (photo to left). Leveling is accomplished by a heavy-duty, reinforced rubber airbag that once charged with shop air can handle loads up to 4,500 lbs. After airbag charging is complete the P3 can be disconnected and moved to any location in the plant. Because the P3 is pneumatic it can accommodate loads that vary substantially in weight (from 400 - 4,500) so one unit is versatile enough to work in several areas.

The P3 - Presto Pallet Positioner features a turntable top with full 360° rotation. Anti-friction bearings for easy turning allowing users to spin loads so they are always loading and unloading from the nearside without having to walk around the unit.
